QUICK GUIDE: COURSE REGISTRATION IN FIVE STEPS

1. Start internet and go to vunet.vu.nl and log on with your VUnet-ID and password
2. Click on “Course registration” in the middle of the page on the left side
3. Click on “Register course” in the period you want to register for in this case period 4, 5 and 6. In the study guide you can check which courses you have to follow per period and find the course names and the course codes in the proposed courses (example: E_PM_STAT).
4. Click on the course you want to register for and click on “Book”. You can select the lecture and study group. The first exam is already selected. Again click on “Book” to register for the course. You can find all deadlines for registration in VUnet.
5. To register for more than one course, repeat from step 3.

REGISTRATION GUIDE WITH SCREEN SHOTS

Step 1
Open internet and go to vunet.vu.nl. Sign in with your VUnet-ID and password.

Step 2
Click “Course registration” in the middle of the page on the left side (see picture →)

Step 3
You will now be directed to the system for course registration. At the top of the page you can see your study program and academic year. Check if this is the correct study program and academic year. Choose period 4, 5 or 6 and click “register course” to register for courses in this period.

Step 4
Search for the modules/courses that you want to register for by using the search bar. Below the search bar there are some proposed courses for your program. In the study guide you can check which courses you have to follow per period and find the course names and the codes in the proposed courses (example: E_PM_STAT).
Step 5

Click on the course you want to register for and click on “Book”. You can select the lecture, and study group. The first exam is already selected. Again click on “Book” to register for the course. You can find all deadlines for registration in VUnet. If you will have a resit you will have to register for this yourself as soon as your insufficient mark is registered in VUnet and check the box for the resit.
Step 6

In your personal schedule you can check if your registration is correct and without any course overlap. If there is overlap open the course and register for a different study group. The best way to avoid overlap is to choose the same number of study group in both courses. Only if all activities are in your personal schedule registration for the course is done correctly.

Step 7

You have now registered for the course. You can register for more courses by repeating steps 3+4+5+6. At page 1 of this manual, an overview for all study programs has been given for which courses you need to register in the second semester (period 4, 5 and 6).
